April 19, 2024

The Board of Directors at Survivor's Hope Crisis Centre would sincerely like to thank all those who have contributed to the SAVE SARAH Campaign to date, including the Manitoba Justice for pledging \$25,000. The funding we have received *to date* will sustain the counselling program over the summer. We still need help and we cannot stop until we have continued support to ensure Survivors in the Interlake-Eastern region of Manitoba can always access free, timely, specialized counselling and supports in their own community.

We would also like to extend our gratitude to Coral Kendel, Executive Director of Survivor's Hope Crisis Centre, who has been amazing in rallying support regarding the financial need for SARAH as well as guiding Survivor's Hope staff during this stressful time. She has been passionately working *to ensure* new and existing clients can continue to receive counselling and supports. The staff at Survivor's Hope are very dedicated to the work that they do and we know this has been a strenuous and heartbreaking time for them.

Any donation you can offer, no matter the size, will allow the SARAH program to keep in operation while we continue to advocate for long term and sustainable resources. Please consider donating via GoFundMe at <https://gofund.me/7be2bbed> or through CanadaHelps: www.survivors-hope.ca/donate or etransfer to finance@survivors-hope.ca

Another way you can help us to advocate for long term support is by writing to your local Member of Parliament or Member of the Legislative Assembly to Advocate for the SARAH Program and show your support.

We have started off strong with this campaign and we need to keep the pressure on.

SH Board of Directors

hope and healing through support and education
